

Primary or Stem Cells Successfully Transfected Using *TransIT*[®]-2020 Transfection Reagent

Primary or Stem Cells	Transfected By Other Researchers	At Mirus
Human airway epithelial cells	X	X
Human astrocytes	X	
Human ES cell derived neural progenitors	X	
Human foreskin fibroblasts	X	X
Human mesenchymal stem cells	X	
Human osteoblasts	X	
Human skin fibroblasts	X	
induced pluripotent stem cells (iPSCs)	X	
Mouse cortical neurons (E18)	X	
Mouse embryo fibroblasts	X	X
Mouse ES cell derived cardiomyocytes	X	
Mouse osteoblasts	X	
Normal Human Dermal Fibroblasts (NHDF)	X	X
Rat aortic smooth muscle cells (SV40 Large T-antigen transformed)	X	
Rat spiral ligament fibrocyte	X	
Xenopus cell culture	X
